« PESCAROLO, KING OF PROTOTYPES »

For Henri Pescarolo himself, there is nothing to be added to the title of the ACO Press Release!

Both victories, in LMP1 and LMP2, for Pescarolo prototypes in Asian Le Mans Series.

The Pescarolo-Judd entered by Sora Racing and operated by Pescarolo Sport proved to be, once more, one of the best LMP1 cars on the track: victory in the first round and second position in the second round after fantastic battles with the Lola Aston-Martin, the Oreca-AIM and the two Audis.

Christophe Tinseau was discovering the track and his teammate Shinji Nakano was discovering the Pescarolo-Judd; they can both feel proud to have won the first-ever Asian Le Mans Series race.

Team Oak Racing brilliantly won the LMP2 category in a Pescarolo-Mazda driven as usual by Jacques Nicolet, Richard Hein and Matthieu Lahaye.

The title won in Asian Le Mans Series, following the second position behind the manufacturer Aston-Martin achieved in Le Mans Series, constitutes a superb reward for the entire Team Pescarolo Sport.
